for imaging and tracking.

alogent.com

Our software helps banks and credit unions go paperless, reduce exceptions, and improve lending processes. AccuAccount, our integrated imaging and tracking system, is trusted by 15,000+ bankers to manage over 2 million loans. AccuAccount connects to 30+ core banking systems and automates the tedious aspects of loan administration.

As loans are booked to the core, AccuAccount creates matching customers, accounts, and document placeholders. AccuAccount assigns expiration dates, ensuring each document is collected on time. As financials and documents are scanned in, AccuAccount clears exceptions, eliminating manual ticklers. And, each stakeholder gets a user profile, delivering real-time insights.
