AccuAccount

Go paperless, reduce exceptions, and improve your lending process with AccuAccount, an integrated imaging and tracking system from Alogent. Trusted by 15,000+ bankers to manageover2millionloans, AccuAccount connects to 30+ core banking systems and automates the tedious aspects of loan administration.

As loans are booked to your core, AccuAccount creates matching customers, accounts, and document placeholders. AccuAccount assigns expiration dates, ensuring each document is collected on time. As financials and documents are scanned in, AccuAccount clears exceptions, eliminating manual ticklers. And, each stakeholder gets a user profile, delivering real-time insights.

Meet Some of Our Satisfied Users

We're proud to serve more than 15,000 users at banks and credit unions throughout North America.

- Jennifer R. FIRST FEDERAL

"Across all departments, we're now able to do more with less, thanks in large part to AccuAccount...When asked to share the biggest highlight for 2015, every area of our bank responded with a single word: AccuAccount."

- Jeana L. BRIDGEWATER BANK

"Think about the time and money your institution might be wasting on paper documents. Moving files from branch to branch is inefficient and creates unnecessary risk. A better approach is using a system like AccuAccount.

— Janetta K. BANK OF BLUE VALLEY

"AccuSystems is truly a user-based, user-driven company. Their products are truly catered to meet their clients' needs and their staff is always readily available to help every step of the way."

Theresa Z. EQUITABLE SAVINGS & LOAN

"We have been using AccuAccount since 2009 and absolutely love it. The system is so user-friendly and accomplishes things we were unable to do using our core imaging system."

Kim T. ENTERPRISE BANK

Loans, Deposits, & Trusts

AccuAccount integrates imaging, exception management, reporting, and workflow into one system. Manage loans and credit, deposits, trusts, and customer information in a highly integrated and intuitive platform.

- Imaging
- Tracking
- Reporting
- Workflow

Empower users by delivering fingertip access to the documents, exceptions, and reports they need to accelerate efficiency at your financial institution.

Core Integration

AccuAccount integrates to 30+ core systems and third-party banking applications, streamlining the collection of important data and files.

Imaging

Decentralize your document management process with AccuAccount's flexible imaging solutions. Desktop scanning, barcode scanning, and ePrint upload simplify imaging for modern financial institutions.

Built-In QC

Boost compliance by allowing branch-level users to scan into a centralized repository for your QC team to review and approve (or reject).

360-Degree Views

Detailed customer view resembles a traditional loan file. Thumbnail document view offers an at-a-glance gallery for quick access.

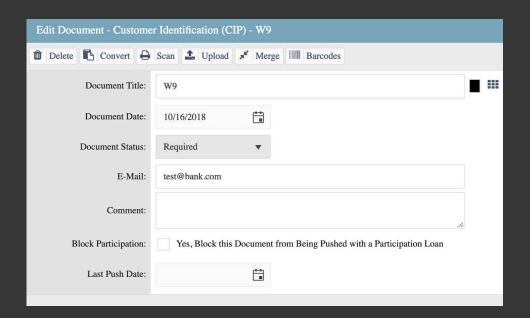

PDF Support

Native PDF support delivers a convenient and familiar file format for end users. Download, bookmark, and search PDF files with ease.

Image Smarter

Get more users involved with scanning to maximize throughput. Customize your document structures and workflow to match your financial institution's unique imaging policies and procedures.

Document Tracking

Automate your exception management process with AccuAccount. As documents are scanned into the system, AccuAccount automatically clears outstanding exceptions - eliminating the need for manual ticklers.

Integrated Tracking

Eliminate manual data entry for exceptions. Clear exceptions by scanning documents. Core integration pulls in new data with pre-populated document placeholders.

Document Schedules

Put your tracking on auto-pilot. Let AccuAccount add new exceptions for ongoing document tracking of tax returns and other recurring documents.

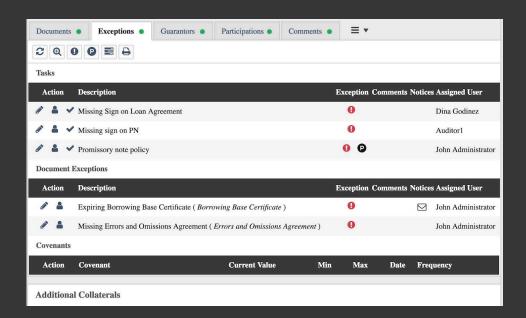

Notice Letters

Put your tracking on auto-pilot. Let AccuAccount add new exceptions for ongoing document tracking of tax returns and other recurring documents.

Track Smarter

Reduce missing, expired, and past-due documents. Track tasks and policy exceptions to increase accountability and minimize exposure to costly oversights.

Reporting

Increase transparency with AccuAccount's standard and dynamic reporting capabilities. Subscribe to daily, weekly, or monthly reports. Drag and drop for customized reporting. Make data-driven decisions.

Exception Reports

Instantly view and export exception reports by officer, branch, user, customer, account, date, and other criteria.

Data Reports

Gain in-depth insights about active customers, loan and deposit activity, collateralized loans, and much more.

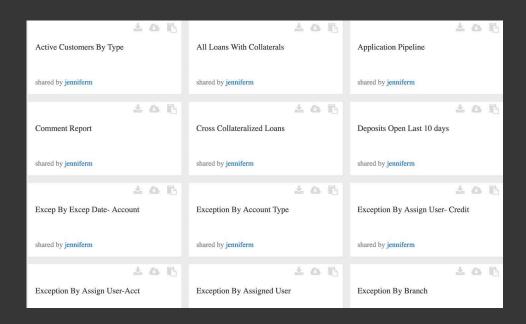

System Reports

Ensure accountability with detailed system log error reports and user security reports.

Report Smarter

Build beautiful, shareable reports with our drag-and-drop builder. Export data to Excel workbooks. Empower users with data.

Workflow

Create scalable, repeatable processes at your financial institution. AccuAccount's built-in workflow streamlines everything from loan application and approval to exception management and quality control.

AccuApproval

Streamline your loan application, underwriting, and approval process with automated emails and notifications to users.

Exception Automation

Automated reports keep everyone in the loop. Exceptions are cleared automatically as new documents are scanned in.

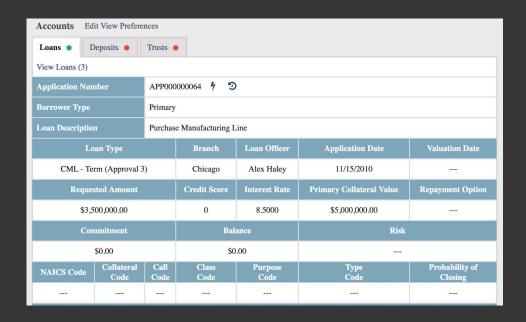

Quality Control

Accept or reject documents with a single click. Rejected documents are sent back to the scanner automatically.

Work Smarter

Close loans faster with automated loan application routing. Boost compliance with automated exception and QC management.

AccuDoc

AccuDoc provides a dynamic storage repository for everything else at your bank. System reports and interfaces can be configured for the specific needs of each department.

Accounts payable records, contracts, HR documents, insurance policies, meetings minutes, policies and procedures, securities, and reports are just a few of the things you can store in AccuDoc.

CORELink

CORELink provides users a quick and seamless method to access vital customer records and eliminates the need to search in multiple applications. When one or more key fields is identified (such as customer name, tax identification number, or account number), CORELink automatically links the user to the correct customer home page in AccuAccount or AccuDoc.

- Simplify the search process
- Eliminate manual searches
- Just click and view

- Save time
- Increase productivity
- View information in seconds

Alogent provides proven, end-to-end check payment processing, digital, online, and mobile banking, and enterprise content and information management platforms to financial institutions of all sizes, including credit unions, community banks, and some of the largest national and international institutions. Our unique approach spans the entire transaction "ecosystem" - capturing and digitizing transaction data, exception tracking, and automating entire transaction and loan management workflows so that information is available across the enterprise. Alogent's solution suites leverage the latest in AI, machine learning and predictive analytics, including enterprise-wide data intelligence and reporting solutions that enable financial institutions to deliver products and services that boost engagement through personalization and data-backed decisions.
